Professional Summary

Senior DevOps Engineer with 7+ years of experience designing, automating, and operating cloud-native platforms on AWS. Strong hands-on experience with Kubernetes, Docker, Terraform, GitHub Actions, Jenkins, Linux, Prometheus, Grafana, and production incident response.

Core Skills

AWS, Amazon EKS, EC2, S3, RDS, IAM, VPC, Kubernetes, Docker, Helm, Terraform, Ansible, GitHub Actions, Jenkins, Argo CD, Linux, Bash, Python, Prometheus, Grafana, CloudWatch, ELK, Nginx, PostgreSQL, Redis, CI/CD, SRE, Incident Response, Security Hardening, Cost Optimization

Professional Experience

Senior DevOps Engineer - CloudScale Solutions | Jan 2021 - Present

- Designed and managed AWS infrastructure for production applications using Terraform modules and reusable environment patterns.
- Built and operated Kubernetes workloads on Amazon EKS with Helm-based deployments, HPA, ingress controllers, and observability dashboards.
- Implemented CI/CD pipelines using GitHub Actions and Jenkins, reducing manual deployment effort and improving release consistency.
- Improved monitoring and alerting using Prometheus, Grafana, CloudWatch, and centralized logging for faster incident triage.
- Participated in production incident response, root cause analysis, postmortems, and reliability improvement planning.

DevOps Engineer - TechOps Labs | Jul 2017 - Dec 2020

- Containerized Node.js and Python services using Docker and deployed them through automated CI/CD workflows.
- Managed Linux servers, Nginx reverse proxies, SSL certificates, backups, and deployment automation scripts.
- Created Infrastructure as Code for VPC, EC2, RDS, S3, IAM, and load balancers using Terraform.
- Supported database backup validation, disaster recovery drills, and access control hardening.

Certifications

AWS Certified Solutions Architect - Professional | Certified Kubernetes Administrator (CKA)

Education

BS Computer Science - University of Lahore
